**Lovely Professional University, Jalandhar (2020-21)**

**Submitted to:- Dr.Dhanpratap Singh**

# SYNOPSIS :-

And Since the main motto of the website is to get logging you in with the help of google forms which means it will accept your requisite if you are a user to the income tax you have the allowance to get into it. In this project lots of information is also been delivered
with the help of different buttons which a normal website of income tax department always shows such as About us link , Feedback and surveys of the website and various ways to contact the domain. It also consisted of the various information conveyed to the user about their website as well it also shows latest news conveyed by the government about the income tax;

Technologies Use:

1. Html
2. CSS
3. Bootstrap

As we are suggest to use at least three technologies.

All the members of the group work hard and contribute equally to finish this project on time.

we work equally in this project and all the things form, navigation bar, links , news pan, update pan etc.
build by us we also take reference from other sites to make our project as better as we can.

And it also consisted of FAQs section where Frequently Asked questions are asked by the user and their answers are conveyed properly without fail and were kept aside for other user to convey and solve the same problem.
It has  also the Quick Link section where as a dummy we can link the users pancard with addhar card.
It also has ITR(Income Tax Return) for the following candidate who have already log in to their account.
We have also put dummy logo of the income tax department .

The site we build is completely responsive
We can sue it on any device it will adapt the size automatically.
Which help the users , they can use it on Mobile ,Tablet, Laptop etc

However we built this website together but we put light works done by individual member.

Components of the sites Build by Vishnu Kumar

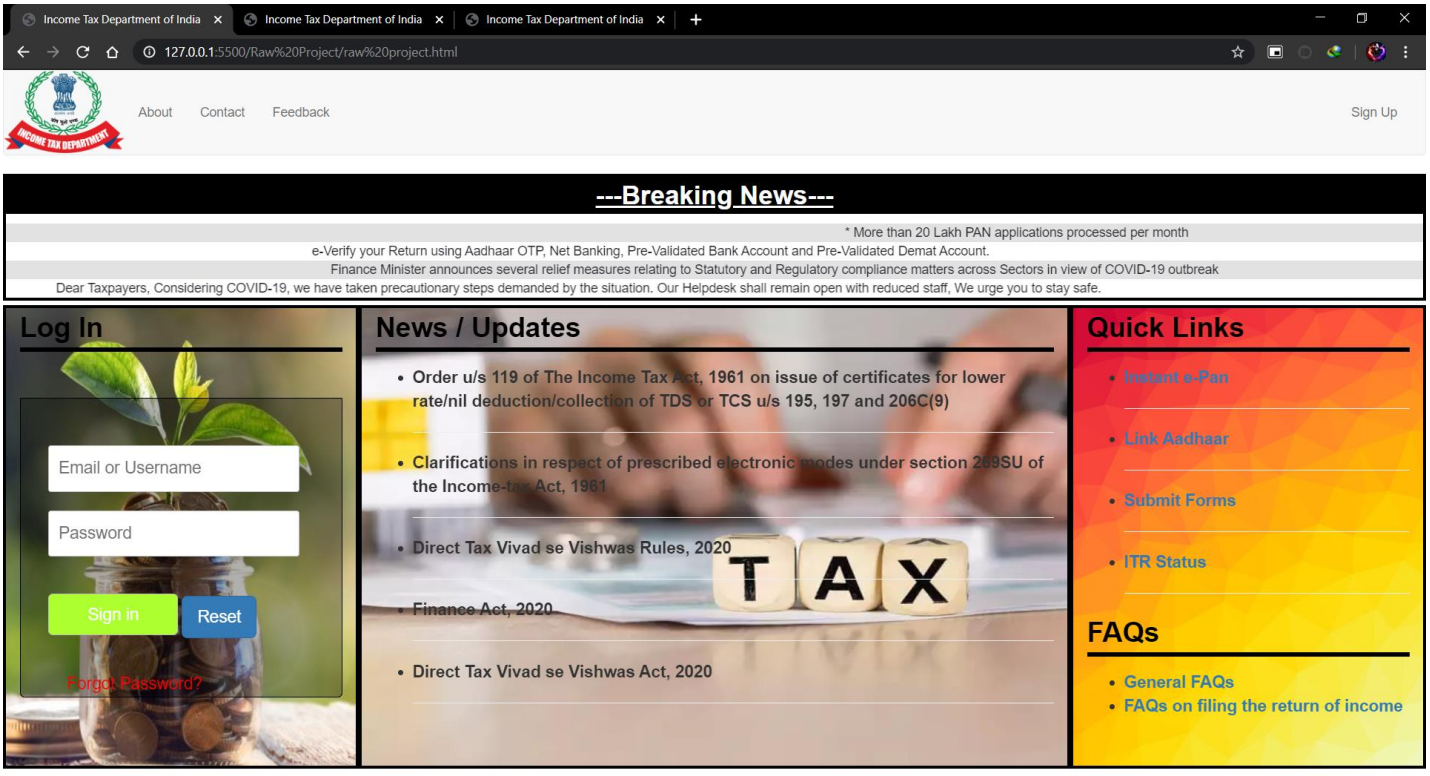
He build the layout of the website which is the building block of a website .

All the decoration like images and colors in the site is also done by Vishnu kumar which make the site more presentable.

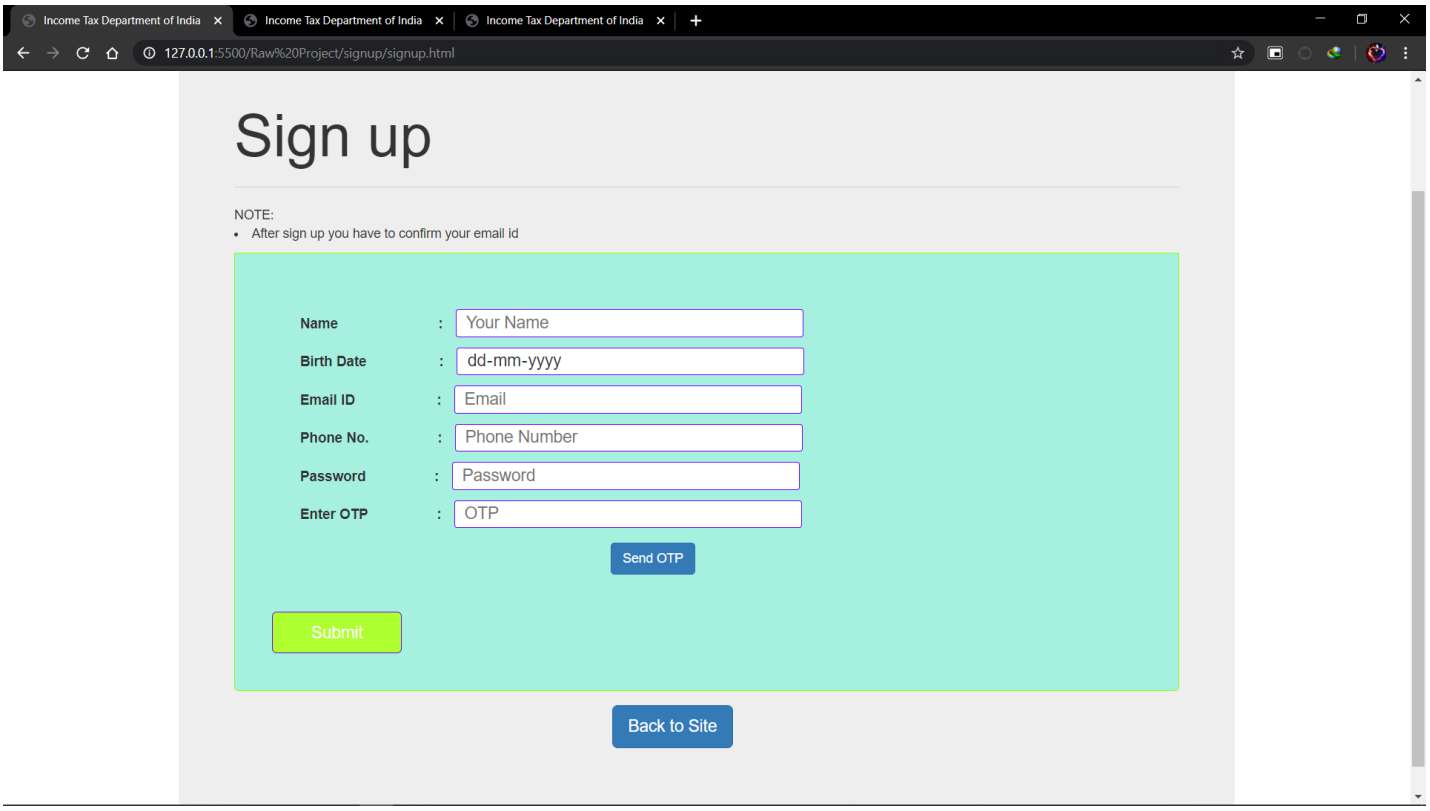
He also help in building most of the back links in the site like instant e-Pan , Link Aadhar , Sign Up Form etc.

Vishnu kumar also build the login block in the website which is the essential part of the website.

He also build some forms and quick link pages.



# This is out site look like.



# Sign Up Page

Components of the sites Build by Srinjay Mondal

He build the News and Update column and maintain it. He  uses div , li and hr tags to build it and also Some css to maintain the text.

He also help in building most of the back links in the site like Submit Form , ITR Status, General FAQs. page etc.

He also help us in bulding About  and FAQs on filing the return of income.

About
History of Taxation Pre – 1922
"It was only for the good of his subjects that he collected taxes from them, just as the Sun draws moisture from the Earth to give it back a thousand fold" –
--Kalidas in Raghuvansh eulogizing KING DALIP.
It is a matter of general belief that taxes on income and wealth are of recent origin but there is enough evidence to show that taxes on income in some form or the other were levied even in primitive and ancient communities. The origin of the word "Tax" is from "Taxation" which means an estimate. These were levied either on the sale and purchase of merchandise or livestock and were collected in a haphazard manner from time to time. Nearly 2000 years ago, there went out a decree from Ceaser Augustus that all the world should be taxed. In Greece, Germany and Roman Empires, taxes were also levied sometime on the basis of turnover and sometimes on occupations. For many centuries, revenue from taxes went to the Monarch. In Northern England, taxes were levied on land and on moveable property such as the Saladin title in 1188. Later on, these were supplemented by introduction of poll taxes, and indirect taxes known as "Ancient Customs" which were duties on wool, leather and hides.

General FAQs
Q. What is Income-tax?
Ans. It is a tax levied by the Government of India on the income of every person. The provisions governing the Income-tax are covered in the Income-tax Act, 1961.
Q. What is the administrative framework of Income-tax?
Ans. The revenue functions of the Government of India are managed by the Ministry of Finance. The Finance Ministry has entrusted the task of administration of direct taxes like Income-tax, Wealth tax, etc., to the Central Board of Direct Taxes (CBDT). The CBDT is a part of Department of Revenue in the Ministry of Finance. CBDT provides essential inputs for policy framing and planning of direct taxes and also administers the direct tax laws through the Income-tax Department. Thus, Income-tax Law is administrated by the Income-tax Department under the control and supervision of the CBDT.
Q. Who is supposed to pay Income-tax?
Ans. Income-tax is to be paid by every person. The term 'person' as defined under the Income-tax Act
